

Dear Parents,

RE: Class restructure

As you are aware our school is experiencing growth as new families purchase homes and move to Golden Bay. With a number of new enrolments, and continued growth in this area of the school next term, there is a need for an additional year 2/3 class.

I am pleased to let you know that the additional class will provide us with smaller class sizes for students in years two and three. This will further support your child's learning experience here at Golden Bay Primary School. I have already hired the new teacher, Jaye Bennet, who is successfully working with students in Block 3 with rotational Math and English activities.

The new arrangements will commence in week one of Term 3. To balance existing classes with the additional class, I will be seeking students from years two and three to transfer to Jaye's class.

If you would like to volunteer to change classes please contact as soon as possible at Peta.Lawrence@education.wa.edu.au or call on 9583 8800. I will contact parents individually to discuss transfer options where required.

Thank you for your support and understanding while I restructure the classes for students in these year levels. Their learning opportunities are of great importance to me.

Please don't hesitate to contact me if you need to discuss the aforementioned arrangements. Thanks again.

Yours sincerely

PETA LAWRENCE
