

Dear Parents

Our school is part of a national project about students with disability and/or learning difficulties.

I have been asked to provide data about the number and learning needs of children at our school. The name of the school and the name of the students will not be reported. Information about the different types of needs and the programs and resources the school uses to overcome barriers and support children with special educational needs will be collected.

I believe it is important to contribute to this data. This will help Governments and the Department of Education develop policies and better direct resources required in schools to meet the needs of all students in Western Australia.

If you would like to learn more about the Nationally Consistent Collection of Data for School Students with Disability you can visit this website:

<http://det.wa.edu.au/supportfroschools>

If you need to speak with me or a member of the executive team about this data collection please call 95838800.

Yours sincerely

PETA LAWRENCE
