

## Electronic Delivery of Student Formal Reports Community Survey

Western Australian schools now have the option to deliver student formal reports to parents at the end of each semester electronically. This provides advantages for the parent community as well as the school in a number of ways, and allows parents to retain a digital record of student achievement.

Currently there are two methods for electronic delivery of formal reports:

1. Access through Connect; and
2. Emailing a link to a PDF of the student report.

Connect is an integrated online environment developed by the Department of Education WA for staff, students and parents in public schools. Access is granted via secure a secure log in where parents can view information about their child only.

This survey is to gain feedback from our parent community in regards to the electronic delivery of student reports. This survey is also available via online at:

<https://www.surveymonkey.com/r/GBPSReportingtoParents>

Thank you for taking the time to complete the following questions as your feedback is valued. Responses need to be returned to school by Friday 28 July 2017.

Kind regards,

Michelle Nash  
Assistant Principal
